

Electronic technician @ Easy Aerial

Location: Belgrade

About us

Easy Aerial develops and manufactures the Smart Aerial Monitoring System (SAMS), a mobile, highly durable and fully autonomous unmanned aerial monitoring system for perimeter security.

Easy Aerial has developed and brought to market two leading products - the SAMS and SAMS-T which are requested by some of the biggest customers (US Air Force, US DHS) with first initial contracts already signed. Each Smart Security System encompasses multiple advanced technologies and patents that are tailored to our client's exact needs and requirements. The Smart Security System is ideal for perimeter security and ongoing monitoring of designated sites and locations, first responders and HLS functions.

Easy Aerial is the industry leader in the autonomous drone-in-a-box domain.

We have 3 offices, in NY, Tel Aviv, and Belgrade with 85 people at the moment and we are in search for a new **Embedded team member, Electronic technician**.

About you:
